

Polyester Finishing Putty

1000 SERIES FILLER PUTTY

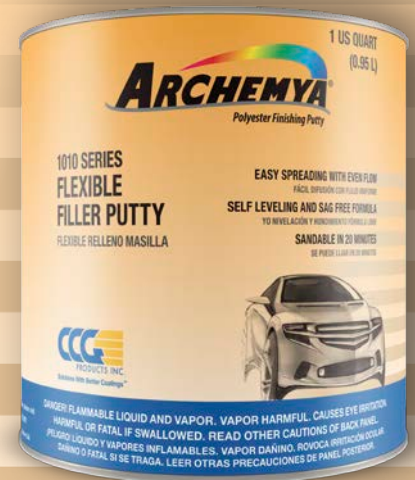

Archemya's 1000 Series Filler Putty is designed to fill all minor damages on semi-rigid PP and TPO. The sandable polyester finish gives Archemya's 1000 Series Filler Putty good adhesion over the competition. Offers a smooth finish that results in less sanding and prepping for the next coat. Archemya's 1000 Series Filler Putty offers an excellent flexibility unlike any other putty and can also be used on hard plastics and metal parts.
