

Plasti-Shield

3000 SERIES

1K PLASTI-SHIELD

TPO COLOR COAT SYSTEM

Archemya's 3000 Series Plasti-Shield Color Coat System is an advanced, solvent-based, VOC compliant color coat system designed to permanently recolor both interior and exterior plastics. This product does not require any adhesion promoters and provides excellent durability and appearance for faded plastic bumpers, claddings and trims. This 1K-formulation system is very economical and are available in nine toners for a complete color coat system. The **3000 Series** is compatible with most urethane-base-clear topcoat systems and can be used on all textured plastics to improve the appearance of the substrate.
