

Plastic Adhesion Promoter

4550 SERIES

TAPSS

ADHESION PROMOTER

Archemya's 4550 Series Adhesion Promoter ensures the best possible adhesion from plastic to primer. This adhesion promoter will eliminate paint peeling and adhesion failure on most TPO's including EPDM, TEO, TPE and other difficult to paint plastic substrates. This product is 50 state compliant.

Available in:

4550 TAPSS Adhesion Promoter - Aerosol (20 oz)

4551 TAPSS Adhesion Promoter - 4.5 VOC

- 4551-1 (Gallon) - 4551-4 (Quart)

- ◆ GUARANTEED ADHESION TO PLASTICS
- ◆ DRIES IN MINUTES
- ◆ WORKS ON FLEXIBLE & RIGID SUBSTRATES
- ◆ 50 STATE COMPLIANT
