

Adhesion Promoters

4900 SERIES

ezFLOW

ADHESION BLENDER & PROMOTER

Archemya's 4900 Series ezFLOW Adhesion Blender & Promoter is a unique adhesion promoter that guarantees adhesion to a wide variety of substrates ranging from all plastics (TPO, TPE, TEO) to treated metal surfaces including aluminum, metal, glass, fiberglass and SMC. This product dries in minutes and greatly reduces the overall refinishing time for any job. Additionally, this product can be blended with nonmetallic urethane basecoats and applied directly to plastic surfaces in a 2:1 ratio.

Eliminate the stress of adhesion failure and save both time and money by going with the flow!

- ◆ **MAKES PAINT ADHERE TO A WIDE VARIETY OF SUBSTRATES**
- ◆ **DRIES QUICKLY**
- ◆ **50 STATE COMPLIANT**
- ◆ **BLENDABLE 2:1 WITH DIRECT ADHESION TO PLASTICS**
