# PRIMERS & SEALERS

## 7010 SERIES

### 1K Kwik Sanding Primer Surfacer

Archemya's 1K Kwik Lacquer Sanding Primer Surfacer is an advanced elastomeric coating that facilitates adhesion when priming to the surface of plastic, metal, aluminum, urethane, and other substrates. This product's quick dry time, low cost and easy to sand characteristics make this product convenient for refinishers. Use Archemya's 4550 Series Adhesion Promoter when used over TPO substrates. Use low air pressures to get adequate atomization to allow a greater transfer efficiency.

Available in:

7010 1K Kwik Sanding Primer Surfacer - 3.5 VOC

- 7011-1 Light Gray (Gallon) - 7011-4 Light Gray (Quart)

- 7012-1 Med Gray (Gallon) - 7012-4 Med Gray (Quart)

7020 1K Kwik Sanding Primer Surfacer - 2.1 VOC

- 7021-1 Light Gray (Gallon) - 7021-4 Light Gray (Quart)

- 7022-1 Med Gray (Gallon) - 7022-4 Med Gray (Quart)

7030-3 1K Kwik Sanding Primer Surfacer - Aerosol (16 oz)

## 7450 SERIES

### SELF ETCHING PRIMER

Archemya's 7450 Series Self Etching Primer is a pretreatment primer that provides superior corrosion resistance and creates strong bonding to most metals such as aluminum, bare steel, galvanized steel, and fiberglass by etching the surface of the substrate. It can be top coated with all automotive primers and paint systems.

Available in:

Self Etching Primer - 4.6 VOC

- 7451-1 (Gallon) - 7451-4 (Quart) - 7461-3 (16 oz Aerosol)

## 5800 SERIES

### 2K HIGH SOLID URETHANE SEALER

Archemya's 5800 Series 2K High Solid Urethane Sealer is a two component urethane sealer that gives great coverage and has excellent application properties. This sealer will enhance the appearance of clear and base coats by filling in the imperfections of the sanding primers applied over the substrate. This product will bring out the gloss as well as a smooth and even appearance on the finished product after application of sealer.

Available in:

5810 2K High Solid Urethane Sealer - 4.4 VOC

- 5811 Light Gray (Gallon)

- 5812 White (Gallon)

- 5813 Black (Gallon)

- 5814 Urethane Sealer Hardener (Quart)

5820 2K High Solid Urethane Sealer - 2.1 VOC

- 5821 Light Gray (Gallon)

- 5822 White (Gallon)

- 5823 Black (Gallon)

- 5824 Urethane Sealer Hardener (Quart)

# PRIMERS & SEALERS

## 6000 SERIES 2K HIGH PERFORMANCE PRIMER SURFACER

Archemya's 6000 Series 2K Hi-Performance Acrylic Urethane Primer Surfacers are high-build, two-component acrylic urethane primer surfacers. This 2K formula provides an outstanding coverage to facilitate a superior sanding on both wet and dry surfaces. This product has excellent flexibility as well as a great color and gloss holdout. This product is ideal for all size repairs ranging from spot repairs to full-scale overall refinishing. This product comes in a variety of colors to make the top coating process even more convenient for the refinisher. Now you can mix and match Archemya's range of primer colors to get the ideal undercoat color for your application. Archemya's 6000 Series 2K Hi-Performance Acrylic Urethane Primer Surfacers are extremely durable and has exceptional flow and leveling properties. Additionally, you can further reduce this product with reducer to meet the requirements for your application. This product comes in a 4:1 mix ratio, with four parts 6010 Series Part A and one part 6012 Part B for a 2.1 VOC formulation or with four parts 6020 Series and one part 6022 Part B for a 4.2 VOC formulation. This product can be applied directly to metal or to plastic with Archemya's 4550 Adhesion Promoter.

### Available in:

- 6010 2K High Performance Sanding Primer - 2.1 VOC
- 6011 Light Gray (1 Gallon)
- 6012 2K High Performance Sanding Primer Activator (1 Quart)\*
- 6013 White (1 Gallon)
- 6014 Black (1 Gallon)
- 6015 Olive Green (1 Gallon)

# 2K URETHANE CLEAR COATS

## 1148 SERIES

### €URO STYLE FINISH 2K CLEAR COAT

Archemya's 1148 series 2K Universal Urethane Clear Coat is a 2K polyurethane clear coat designed for spot, panel and overall refinishing. This high solid, solvent-based coating is compatible with all solvent based and water based basecoats. It dries very quickly at normal ambient temperature and can be buffed within a few hours. This product always delivers the excellent durability you would expect in a premium clear coat. Additionally this production clear offers excellent gloss and durability that lasts for years to come.

#### Available in:

**1148 2K EURO Style Finish Clear Coat 2.1 VOC (5 Liter)**

- 1149 2K EURO Style Finish Activator 2.1 VOC - MEDIUM (2.5 Liter)
- 1150 2K EURO Style Finish Activator 2.1 VOC - FAST (2.5 Liter)
- 1151 2K EURO Style Finish Activator 2.1 VOC - SLOW (2.5 Liter)

**1152 2K EURO Style Finish Clear Coat 4.2 VOC (5 Liter)**

- 1153 2K EURO Style Finish Activator 4.2 VOC - MEDIUM (2.5 Liter)
- 1154 2K EURO Style Finish Activator 4.2 VOC - FAST (2.5 Liter)
- 1155 2K EURO Style Finish Activator 4.2 VOC - SLOW (2.5 Liter)

## 1160 SERIES

### 2K PROFESSIONAL ULTRA HIGH SOLIDS URETHANE CLEAR COAT

Archemya's 1160 Series 2K Professional Ultra High Solids Urethane Clear Coat is a high solids formulation designed to give the optimum appearance for higher-end refinishing applications. This high solid solvent-based coating can be used over all solvent based and water based basecoats. Obtain excellent gloss, DOI and coverage in fewer coats with our professional series clear coat.

#### Available in:

**1161 2K Professional Ultra High Solids Urethane Clear Coat 2.1 VOC (5 Liter)**

- 1162 2K Professional Ultra High Solids Activator 2.1 VOC - MEDIUM (2.5 Liter)
- 1163 2K Professional Ultra High Solids Activator 2.1 VOC - FAST (2.5 Liter)
- 1164 2K Professional Ultra High Solids Activator 2.1 VOC - SLOW (2.5 Liter)

**1165 2K Professional Ultra High Solids Urethane Clear Coat 4.2 VOC (5 Liter)**

- 1166 2K Professional Ultra High Solids Activator 4.2 VOC - MEDIUM (2.5 Liter)
- 1167 2K Professional Ultra High Solids Activator 4.2 VOC - FAST (2.5 Liter)

# 2K URETHANE CLEAR COATS

## 1100 SERIES

### **GAMBIT CLEAR**

Archemya's 1100 Series 2K Urethane Gambit Clear takes a new approach on the traditional clear coat application. This clear mixes at a 1:1 ratio to allow a high solids application at a ready-to-spray viscosity. This ensures a "glass like" look in as little as two coats along with the easy buffability and workability of a high-end clear. Take a chance with this 1:1 ratio clear and reap the benefits of the Gambit!

Available in:

- 1101 2K Urethane Gambit Clear - 4.2 VOC (2.5 Liter)
- 1102 2K Urethane Gambit Clear Activator 4.2 VOC - MEDIUM (2.5 Liter)
- 1103 2K Urethane Gambit Clear Activator 4.2 VOC - FAST (2.5 Liter)
- 1104 2K Urethane Gambit Clear Activator 4.2 VOC - SLOW (2.5 Liter)
- 1105 2K Urethane Gambit Clear - 2.1 VOC (2.5 Liter)
- 1106 2K Urethane Gambit Clear Activator 2.1 VOC - MEDIUM (2.5 Liter)
- 1107 2K Urethane Gambit Clear Activator 2.1 VOC - FAST (2.5 Liter)
- 1108 2K Urethane Gambit Clear Activator 2.1 VOC - SLOW (2.5 Liter)

## 9000 SERIES

### **ARMADILLINER** 2K TRUCK BEDLINER

Archemya's 9000 Series Armadilliner 2K Truck Bedliner is a 2 component textured coating designed for truck beds and any other high impact areas. This urethane coating provides superior adhesion, excellent film, build and high flexibility. This product is formulated to have excellent chemical resistance and provides a durable and a slip resistant finish to offer ultimate protection. This product mixes in a 4:1 Ratio and is available in either **Archemya's 9011 2K Black Truck Bedliner** or **Archemya's 9012 Tintable Truck Bedliner** with **Archemya's 9013 2K Activator**. This product is 1.7 VOC, 50 state compliant.

**Available in:**

- 9011 Armadilliner 2K Truck Bedliner Kit - BLACK (Gallon)**
- 9012 Armadilliner 2K Truck Bedliner Kit - TINTABLE (Gallon)**
- 9013 Armadilliner 2K Truck Bedliner Activator (Quart)**

*Armadillo Tough!*

## 7040 SERIES

### *TEX-RITE Solvent-Based Texture Coating*

**7040 Series Tex-Rite Solvent-Based Texture Coating** is a super flexible, chip resistant coating that can be optimally reduced and modified to match OEM textures. This product dries quickly to reduce overall production time.

**Available in:**

- 7040 Series Tex-Rite Solvent-Based Texture Coating - 2.8 VOC**
  - 7041-1 Black (Gallon) - 7041-4 Black (Quart)
  - 7042-1 White (Gallon) - 7042-4 White (Quart)

- 7045 Series Tex-Rite Solvent-Based Texture Coating (Aerosol)**
  - 7045 Black (16 oz Aerosol) - 7046 White (16 oz Aerosol)

## 1000 SERIES

### FLEXIBLE FILLER PUTTY

Archemya's 1000 Series Filler Putty is designed to fill all minor and major damages to a variety of substrates ranging from metal to the most flexible of plastics. The flexibility of this putty makes for a popular choice for repairs on semi-rigid PP and TPO bumpers. This product offers a smooth finish that results in less sanding and prepping for the next coat.

**Available in:**

- 1010 Filler Putty with Hardener**
  - 1010-1 (Gallon + 2 Hardener Tubes)
  - 1010-4 (Quart + 1 Hardener Tube)

## 4500 SERIES

### TAPSS 1K TPO ADHESION PRIMER & SPEED SEALER

Archemya's TAPSS 1K TPO 2 in 1 Adhesion Primer and Speed Sealer formula is designed to adhere on all TPO substrates without the need of adhesion promoters. This solvent-based product helps topcoats stick to unprimed TPO plastics. Archemya's TAPSS 1K TPO 2 in 1 Adhesion and Speed Sealer has shown great compatibility with all major Base-clear coats and single stage paint systems. Topcoating can be applied without the need of sanding or scuffing as soon as TAPSS is dry. A primer, sealer and adhesion promoter is all available in one can!

#### Available in:

**4510 TAPSS 1K TPO 2 in 1 Adhesion Primer and Speed Sealer - Aerosol (20 oz)**

- 4511 (Light Gray) - 4512 (Dark Gray) - 4513 (White)

**4520 TAPSS 1K TPO 2 in 1 Adhesion Primer and Speed Sealer - 4.6 VOC**

- 4521-1 Light Gray (Gallon) - 4521-4 Light Gray (Quart) - 4521-2 Light Gray (2.5 L)  
- 4522-1 Dark Gray (Gallon) - 4522-4 Dark Gray (Quart) - 4522-2 Dark Gray (2.5 L)  
- 4523-1 White (Gallon) - 4523-4 White (Quart) - 4523-2 White (2.5 L)

**4540 TAPSS 1K TPO 2 in 1 Adhesion Primer and Speed Sealer - 2.1 VOC**

- 4541-1 Light Gray (Gallon) - 4541-4 Light Gray (Quart) - 4541-2 Light Gray (2.5 L)  
- 4542-1 Dark Gray (Gallon) - 4542-4 Dark Gray (Quart) - 4542-2 Dark Gray (2.5 L)  
- 4543-1 White (Gallon) - 4543-4 White (Quart) - 4543-2 White (2.5 L)

## 7500 SERIES

### TAPSS SANDING PRIMER SURFACER

Archemya's 1K TPO 2 in 1 TAPSS Sanding Primer Surfacers formula is designed to adhere on all TPO substrates without the need of adhesion promoters. This sandable version of Archemya's TAPSS 4500 Series, gives refinishers the freedom to sand after every coat to obtain the best possible finish. This solvent-based product helps the base-clear topcoat stick to unprimed TPO plastics. TAPSS has shown great compatibility with all major Base-clear coats and single stage paint systems.

#### Available in:

**7570 TAPSS Sanding Primer Surfacers - Aerosol (20 oz)**

- 7571 (Light Gray) - 7572 (Dark Gray) - 7573 (White)

**7550 TAPSS 1K TPO 2 in 1 Adhesion Primer and Speed Sealer - 2.1 VOC**

- 7551-1 Light Gray (Gallon) - 7551-4 Light Gray (Quart) - 7551-2 Light Gray (2.5 L)  
- 7552-1 Dark Gray (Gallon) - 7552-4 Dark Gray (Quart) - 7552-2 Dark Gray (2.5 L)  
- 7553-1 White (Gallon) - 7553-4 White (Quart) - 7553-2 White (2.5 L)

**7560 TAPSS 1K TPO 2 in 1 Adhesion Primer and Speed Sealer - 3.5 VOC**

- 7561-1 Light Gray (Gallon) - 7561-4 Light Gray (Quart) - 7561-2 Light Gray (2.5 L)  
- 7562-1 Dark Gray (Gallon) - 7562-4 Dark Gray (Quart) - 7562-2 Dark Gray (2.5 L)

# PLASTIC REFINISHING PRODUCTS

## 4550 SERIES

### TAPSS ADHESION PROMOTERS

Archemya's 4550 Series Adhesion Promoter ensures the best possible adhesion from plastic to primer. This adhesion promoter will eliminate paint peeling and adhesion failure on most TPO's including EPDM, TEO, TPE and other difficult to paint plastic substrates. This product is 50 state compliant.

Available in:

4550 TAPSS Adhesion Promoter - Aerosol (20 oz)

4551 TAPSS Adhesion Promoter - 4.5 VOC

- 4551-1 (Gallon) - 4551-4 (Quart)

## 3000 AND 3400 SERIES

### PLASTI-SHIELD 1K TPO COLOR COATS SYSTEM

Archemya's 3000 Series Plasti-Shield Color Coat System is an advanced, solvent-based, VOC compliant color coat system designed to permanently recolor both interior and exterior plastics. This product does not require any adhesion promoters and provides excellent durability and appearance for faded plastic bumpers, claddings and trims. This 1K-formulation system is very economical and is available in nine toners for a complete color coat system. The 3000 Series is compatible with most urethane-base-clear topcoat systems and can be used on all textured plastics to improve the appearance of the substrate.

Available in:

3000 Plasti-Shield TPO Color Coats - 2.8 VOC - Bulk

- 3000-1 (Gallon) - 3000-4 (Quart)

3400-3 Plasti-Shield TPO Color Coats - Aerosol

3400 Plasti-Shield TPO Color Coats - 2.8 VOC - Bulk

- 3400-1 (Gallon) - 3400-4 (Quart)

## **4900 SERIES**

# **EZ FLOW ADHESION BLENDER & PROMOTER**

Archemya's 4900 Series EZ FLOW Adhesion Blender & Promoter (AB&P) offers a new adhesion promoter that adheres to a wide variety of substrates ranging from plastics to treated aluminium, metal, glass, fiberglass and many other substrates. Additionally, this product can be blended with non-metallic solvent-based basecoats to offer direct adhesion without the need of primer or any other adhesion promoters. This product can mix in a 2:1 ratio with solid color basecoats and be applied directly to the surface. Archemya's 4900 Series EZ FLOW is designed to save body shops time and money without risking any adhesion problems or any sacrificing on quality. Reduce on stress and adhesion problems and go with the flow!

# WATERBASE PRIMERS

## 5000 SERIES

### DEWBORNE WATERBASE SANDING PRIMER

Archemya's 5000 Series Dewborne Sanding Primer is a flexible waterbase sanding primer designed for plastic bumper refinishing. Archemya's 5000 Series Dewborne Sanding Primer hides sanding scratches as coarse as 180 grit and cures rapidly. Archemya's 5000 Series Dewborne Sanding Primer will provide excellent water and chemical resistance as well as outstanding sanding properties. This product is compatible with all automotive topcoat systems and can be cross-linked up to 2-3% by volume with Archemya's 5009 Dewborne Crosslinker to enhance its properties. Archemya's 5000 Series Dewborne Sanding Primer has a low VOC and an excellent freeze thaw stability (up to four cycles), and is always ready to spray out the can to provide the desired OEM type of finish.

#### Available in:

#### 5000 Water Based Sanding Primer

- 5000-1 Black (Gallon) - 5000-5 Black (5 Gallon)
- 5010-1 Gray (Gallon) - 5010-5 Gray (5 Gallon)

#### 5009 Dewborne Crosslinker (4 oz)

## 5100 SERIES

### DEWBORNE WATERBASE FINISHING PRIMER

Archemya's 5100 Series Dewborne Finishing Primer is a flexible waterbase finishing primer for all plastic surfaces. Archemya's 5100 Series Dewborne Finishing Primer is designed for professional refinishing of thermoplastic and thermoset substrates. With its great finishing properties, Archemya's 5100 Series Dewborne Finishing Primer offers an OEM appearance making it an excellent choice for bumper recyclers. The excellent filling characteristics, easy sanding, superior adhesion, and color holdout make this the best choice for waterbased refinishing. This primer can be directly top coated with almost all automotive topcoat systems. It is freeze thaw stable and can be cross-linked up to 2-3% by volume with Archemya's 5009 Dewborne Crosslinker to enhance its physical properties. This product is ready to spray.

#### Available in:

#### 5100 Water Based Finishing Primer

- 5100-1 Black (Gallon) - 5100-5 Black (5 Gallon)
- 5110-1 Gray (Gallon) - 5110-5 Gray (5 Gallon)

#### 5009 Dewborne Crosslinker (4 oz)

## 1181 SERIES
